

# Pending Collection

Allows staff to see lab orders to be collected.

- Screen refreshes frequently
- Screen can be printed
- Can print patient requisition
- Defaults to show what orders are scheduled to be collected within a 24 hour period
- As NRLS receives specimens in the lab, orders will fall off of Collection list
- “Uncollected Order Count” allows staff to view all uncollected orders in facility – past, present, and future
- Can adjust filter parameters to meet needs
