YOUR MEDICAL TREATMENT RIGHTS UNDER OKLAHOMA LAW

Effective Date: November 1, 2014

INFORMATION FOR PATIENTS AND THEIR FAMILIES

No Discrimination Based on Mental Status or Disability:
Medical treatment, care, nutrition or hydration may not be withheld or withdrawn from an incompetent patient because of the mental disability or mental status of the patient.
Required by Section 3080.5(R) of Title 63 of the Oklahoma Statutes

What Are Your Rights If A Health Care Provider Denies Life-Preserving Health Care?
- If a patient or person authorized to make health care decisions for the patient directs life-preserving treatment that the health care provider gives to other patients, your health care provider may not deny it:
  1. On the basis of a view that treats extending the life of an elderly, disabled, or terminally ill individual as of lower value than extending the life of an individual who is younger, nondisabled, or not terminally ill; or
  2. On the basis of disagreement with how the patient or person legally authorized to make health care decisions for the patient values the trade-off between extending the length of the patient’s life and the risk of disability.

Required by Nondiscrimination in Treatment Act (Sections 3090.2 and 3090.3 of Title 63 of the Oklahoma Statutes)

Your Rights When Treatment Is Denied for Other Reasons:
- If treatment is directed by a patient with decision-making capacity, or by or on behalf of the patient under a valid advance directive:
  - The health care provider must, as promptly as practicable, take all reasonable steps to arrange care of a qualified patient by another physician or health care provider willing to comply.

Required by the Oklahoma Rights of the Terminally Ill or Persistently Unconscious Act (Sections 3131.4 of Title 63 of the Oklahoma Statutes)

What If a Health Care Provider Disagrees with Your Direction to Withhold or Withdraw Medical Treatment?
The health care provider must, as promptly as practicable, take all reasonable steps to arrange care of a qualified patient by another physician or health care provider willing to comply.

Required by Oklahoma Advance Directive Act (Section 3101.9 of Title 63 of the Oklahoma Statutes)

What Laws Govern Cardio-Pulmonary Resuscitation (CPR) and Do Not Resuscitate (DNR) Orders?
- Every patient is assumed to consent to CPR whenever the patient undergoes cardiac or respiratory arrest UNLESS the health care provider has actual knowledge of one of the following:
  - The patient’s medical record accurately records the patient’s refusal to consent to CPR, given to the attending physician.
  - A Do Not Resuscitate (DNR) order under the Oklahoma Rights of the Terminally Ill or Persistently Unconscious Act was executed for the patient.
  - The patient’s valid advance directive directs that life-sustaining treatment not be performed in the event of cardiac or respiratory arrest.
  - A minor’s medical records accurately record the parent or guardian’s refusal to consent to CPR for the minor, provided it:
    - if the minor has sufficient understanding and appreciation of the nature and consequences of the refusal and is capable of objecting, the medical record accurately records the minor’s refusal;
    - in the case of a disabled infant with life-threatening conditions, if in reasonable medical judgment CPR will be most likely to be effective in correcting or ameliorating the life-threatening conditions, in reasonable medical judgment:
      (A) the infant is chronically and irreversibly comatose;
      (B) the provision of such treatment would -
        (i) merely prolong dying;
What are Oklahoma’s Requirements Concerning Food and Fluids for Patients?

- It is assumed that any incompetent patient has directed hydration and nutrition (fluids and food) to a degree that is sufficient to sustain life UNLESS their withdrawal or withholding would not be because of the mental disability or mental status of the patient AND:
  - the patient’s advance directive specifically authorizes the withholding or withdrawal of nutrition and/or hydration and the advance directive:
    - is an Oklahoma advance directive (under current or prior law) that is either in the statutory form or that specifically authorizes the withholding or withdrawal of artificially administered nutrition and/or hydration in the patient’s own words or by a separate section, separate paragraph, or other separate subdivision that deals only with nutrition and/or hydration and which is separately initialed, separately signed, or otherwise separately marked by the patient or
    - is an out-of-state advance directive that was executed by a person who was not a resident of Oklahoma at the time of execution or specifically authorizes the withholding or withdrawal of artificially administered nutrition and/or hydration in the patient’s own words or by a separate section, separate paragraph, or other separate subdivision that deals only with nutrition and/or hydration and which section, paragraph, or other subdivision is separately initialed, separately signed, or otherwise separately marked by the person executing the advance directive.
  - a court has directed that artificially administered hydration or nutrition be withheld or withdrawn (a court can do so only based on clear and convincing evidence that the patient, when competent, decided on the basis of information sufficient to constitute informed consent to reject them)
  - the attending physician knows that the patient, when competent, decided on the basis of information sufficient to constitute informed consent that artificially administered hydration or nutrition should be withheld or withdrawn from the patient
  - withholding or withdrawal of hydration or nutrition would not result in death from dehydration or starvation (rather than from the underlying terminal illness or injury) and in the reasonable medical judgment of the attending doctor and a second consulting doctor:
    - (A) the patient is chronically and irreversibly incompetent,
    - (B) the patient is in the final (last) stage of a terminal illness or injury (meaning that, even with the use of medical treatment, the patient is in the dying process and will die within a reasonably short period of time, and
    - (C) the patient’s death is imminent

Required by Hydration and Nutrition for Incompetent Patients Act (Sections 3080.2 through 3080.5 of Title 63 of the Oklahoma Statutes)

Whom Can You Contact If You Suspect a Health Care Provider Is Violating Your Rights under the Laws Described in this Disclosure Statement?

- Report suspected violations of any of the laws summarized in this brochure listed above, or attempts to violate any such laws, to the state Licensing Board of the profession(s) of all health care providers involved in the violation.

Oklahoma Board of Medical Licensure and Supervision
