Oklahoma COVID-19 Risk Level

Cleveland County's current risk level (as well as most of the state's counties) is: **Moderate**

The Oklahoma State Department of Health has developed the Oklahoma COVID-19 Risk Level System; a four-tiered risk measurement tool with corresponding color categories that identify the current COVID-19 risk level. This tool offers the public and local elected officials an easy way to recognize each county's risk level. Find specific guidelines for each color-coded risk level and see county-specific risk levels [here](#).
