

with John Manfredo, Chief Operating Officer

## January 2022

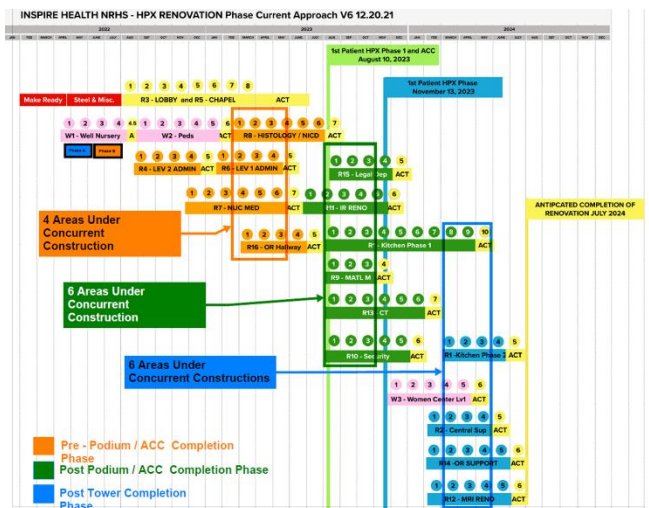

Please enjoy our monthly newsletter provided to keep you informed and up-to-date on our Inspire Health project progression! This newsletter will provide a recap of recent events and highlight upcoming milestones for the HealthPlex, Free-standing Emergency Department Plus, and our Porter Campus revitalization and construction projects

### HealthPlex

#### Garden level construction continues on schedule

- While the construction outside continues to make excellent progress the work inside, renovation, is ramping up.
- The Renovation Schedule to the right represents the sixth version that we've created since planning began for all the required renovation. We anticipate more changes!
- The Super Users continue to help the project team understand the unique needs of each area. This allows us to use our PDSA approach to continuously improve the renovation schedule planning.
- The team from CBRE, in collaboration with each department Super User, is also making great progress on our Transition and Activation work. A Project Hub was created that is a one-stop shop for all project resources. The Project Hub provides high-level 'pulse check' and offers status updates on activation and planning, identified risks and priority tasks, highlights key events, includes transition team information, and links to phase specific dashboards!

# ED Plus

NORMAN REGIONAL NINE

**How Norman Regional Nine looks today**

**How Norman Regional Nine will look in 8 months!**

- The construction on Norman Regional Nine continues on schedule. We are currently planning to get the 'keys' to the building in August. Once we have access to the building we will implement our Transition and Activation planning efforts currently underway. We anticipate a 'first patient day' in October 2022.

# Behavioral Health Center

Porter Health Village

- We will need a solution for 100 healer parking spaces once construction starts on the Senior Wellness Center and the Behavioral Health Center. The current plan is to utilize the lot justwest of the hospital between Porter and Johnson Street. This lot offers 150 spaces and is the closest lot option we have for this temporary need. Stay tuned for more announcements. We currently expect the Porter Campus construction to begin in April or May of this year.

**Anticipated temporary healer parking**

- **Mark your calendars! We are going back to City Council for approval of our Porter Health Village work on January 25, 2022 at 6:30 PM at City Hall. This is a public meeting so your attendance is encouraged!**

**Be sure to visit <https://inspirehealthok.com> for more information!**

Looking forward,

Chief Operating Officer  
Norman Regional Health System
