

March 2022

Please enjoy our monthly newsletter provided to keep you informed and up-to-date on our Inspire Health project progression! This newsletter will provide a recap of recent events and highlight upcoming milestones for the HealthPlex, Free-standing Emergency Department Plus, and our Porter Campus revitalization and construction projects

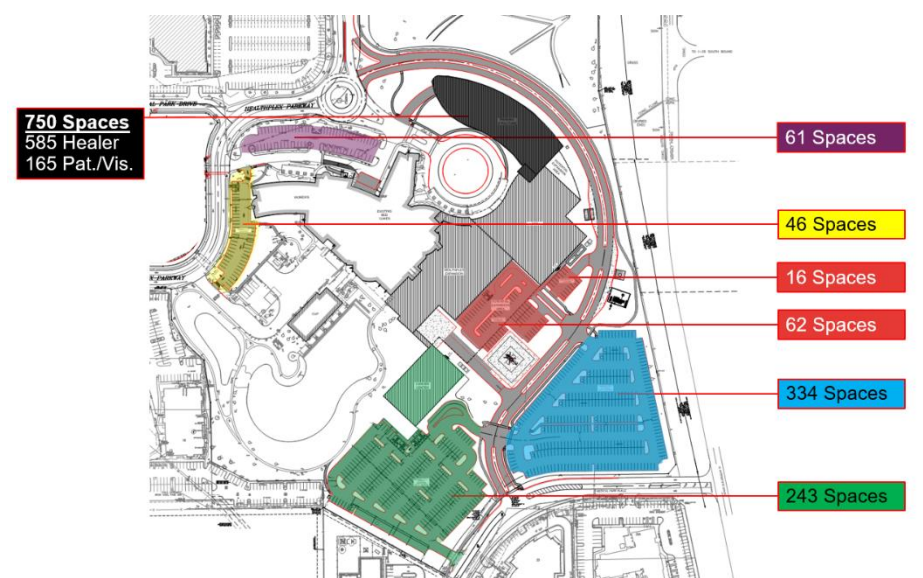

HealthPlex

- The HealthPlex construction marked another milestone with the arrival of our Crawler crane. Crawler cranes range in lifting capacity up to 660 tons. Crawler cranes make short work on the toughest jobs. Rigging and hoisting of structural steel beams are essential parts of the steel erection process for our Inspire Health projects.

Crawler Crane #1 is set up on site

- Another important effort currently underway involves parking. Future parking spaces/lots can be seen on the map to the right. The parking will include designated healer parking (blue shaded lot 334 spaces); Cancer Center parking which will include patient/visitor and healer parking (green shaded lot 243 spaces); Emergency department parking which will include patient visitor and provider parking (red shaded lot 78 spaces); existing provider parking (yellow shaded lot with 46 spaces); existing visitor/patient and provided lot (purple shaded lot 61 spaces), and finally the parking garage which will included patient/visitor and healer parking (black shaded with 750 total spaces).

Parking layout of future HealthPlex Campus

South portion of the building with brick application currently underway

- We continue to work with the Title companies on finalizing the closing documents for the Porter Health Village.

Be sure to visit <https://inspirehealthok.com> for more information!

Looking forward,

John P. Manfreda

Chief Operating Officer
Norman Regional Health System
