

with John Manfredo, Chief Operating Officer

April 2021

Please enjoy our monthly newsletter provided to keep you informed and up-to-date on our Inspire Health project progression! This newsletter will provide a recap of recent events and highlight upcoming milestones for the HealthPlex, Free-standing Emergency Department Plus, and our Porter Campus revitalization and construction projects.

HealthPlex

- **Important to note:** Parking Lot A—planned to be completed in late June—will be dedicated healer parking once all make ready work is completed.
- This past month we began interviewing firms specializing in Transition & Activation Planning (TAP).
- Part of the Inspire Health project will consolidate two inpatient hospitals into one (Porter inpatient services moving to HealthPlex).
- Combining cultures, patient populations, patients, and combining departments will require assistance from experts in this field.
- Building new healthcare facilities, and moving into them, is an extremely complex and inherently risky process.
- The TAP consultant will play a vital role in defining the operational variances and identifying process improvement opportunities, which may be dictated by the overall design of our new facilities, new floor plans, departmental adjacencies and technology, in an effort to assure ongoing patient care excellence!

Parking Lot A Construction Underway!

Example of a Phased Approach to Transition & Activation Planning

NORMAN REGIONAL NINE

- The image to the right represents the current *DRAFT* of the FSED+ patient drop off area.
- The Free-standing ED+ now has a name! Norman Regional Nine will be the name of this new facility.
- The groundbreaking for Norman Regional Nine has been set as well. Mark your calendars for May 20, 2021 at 10 a.m.

FSED+ Patient Drop Off

- The Porter Health Village project will see a new free-standing Behavioral Medicine hospital built in the south portion of the 30 acre property.
- The southeast portion is currently dedicated to the City of Norman Senior Wellness Center.
- Members of our Inspire Health project team continue to meet with the architect team and employees of the City of Norman working on the Senior Wellness Center.
- The updated plan below is very preliminary and will most likely change as the team works through the design process.
- We wanted to share the great progress being made with the Porter Health Village.

Porter Health Village Master Plan
